

Dear LifEscozul Family,

We are very excited to announce to our patients and followers that the **LifEscozul® Group** has signed agreements with two prestigious institutions in Mexico:

**Mexican Research Center Pharmometrica
Research Pro SC**

These agreements are part of the **Escozul® Project** and focused on the obtention of a **Sanitary Registry** in Mexico while establishing a legal framework to protect the rights of Mexican consumers.

Pharmometrica is an authorized Third Party Research Center certified by COFEPRIS (Comisión Federal para la Protección contra Riesgos Sanitarios) under sanitary license N° 09002120001, which provides services and technical support to different companies in the pharmaceutical and health sciences industries.

The agreement signed with **Pharmometrica** will allow us to:

- Develop and implement a rapid validation methodology for **Blue Scorpion Venom** samples. That will help the health regulatory body in Mexico, COFEPRIS, to have a tool to control and detect fake products that claim to contain the **Blue Scorpion Venom**.
- The samples of the **Blue Scorpion Venom** that we will use in the studies to obtain the **Sanitary Registry**, will be analyzed and certified.
- The issuance of an Analytical Certificate for our **Blue Scorpion Venom** amples regarding safety for human consumption, as well as knowing the concentrations necessary to guarantee the effectiveness of **Escozul®** in the studies to be carried out.

Research Pro SC, has more than ten years of experience in research and knows very well the importance of generating knowledge. Our agreement will allow us to develop the entire battery of studies necessary to carry out the **Clinical Trials** in Mexico with **Escozul®**, necessities to obtain the **Sanitary Registry**.

Finally, in the coming days, we will announce other agreements reached with prestigious institutions in Mexico, focused on developing scientific studies with authorized third parties.

Through those agreements, the **LifEscozul® Group** seeks not only to obtain a **Sanitary Registry** for **Escozul®** but also, to reinforce the guarantees for our patients in Mexico.

We are the LifEscozul® Group, and Our Results Define Us.
